PROFILE

Computer Science undergraduate with strong experience in backend, full-stack development and database design. Interested in building scalable applications, and working with modern web and cloud technologies. Actively developing expertise in data systems and analytics.

EDUCATION

2023 – 2027	B.Tech (CSE), Amrita Vishwa Vidyapeetham, Coimbatore	(CGPA: 9.02/10)
2022	Class 12th (CBSE), St. Shantal School, Trivandrum	(90.4%)
2020	Class 10th (CBSE), St. Shantal School, Trivandrum	(97.6%)

PROJECTS

Connected: A Federated Social Media Platform [\[GitHub Repo\]](#) [\[Live Demo\]](#)

Developed a decentralized microblogging platform with federated architecture, enabling independent servers to exchange content using federated identities.

Designed REST APIs, structured MongoDB schemas, and implemented indexes to optimize timeline, synchronization, and user activity queries.

Features include JWT authentication, channel-based organization, moderation tools, and cross-server content discovery.

Tech Stack: React.js, Express.js, Node.js, MongoDB, RESTful Federation, Jest, GitHub Actions

Wikipedia Product Analysis [\[GitHub Repo\]](#) [\[Live Demo\]](#)

Developed an interactive Tableau dashboard and website for analyzing Wikipedia as a product.

Integrated scraped Reddit, and Twitter data using their respective APIs to track social sentiment using the ROBERTA model, and understand platform engagement.

Tech Stack: Python, Pandas, Matplotlib, Wikimedia API, Reddit API, Twitter API, Tableau

StudyHive: A Study Environment [\[GitHub Repo\]](#)

Built a collaborative platform for managing study groups, assignments, and notes.

Implemented backend APIs, optimized database queries, and developed an automated text summarization pipeline using transformer models.

Tech Stack: React.js, Express.js, Node.js, MongoDB, Hugging Face, Thunderclient

SKILLS

Programming	Python, C, C++, Java
Backend & Web	Node.js, Express.js, React.js, JavaScript, HTML5, CSS3
Mobile Development	Flutter, Dart
Databases	MongoDB, MySQL, Firebase Firestore (Schema Design, Indexing)
Data & ML	Pandas, NumPy, PyTorch, Scikit-learn, Seaborn, Matplotlib
Tools & Platforms	Git, GitHub Actions, Postman, Jest

ACTIVITIES

ASCII (CSE Dept. Newsletter) Editor

Jan 2024 - Present

- Edited and structured technical and non-technical articles for the departmental newsletter, ensuring clarity, coherence, and consistency in content.
- Organized and analyzed collected content to design well-structured editions under publication deadlines.
- Contributed to layout planning and formatting for improved readability and visual organization.

Quizkreig – Quiz Club Member

2024 - Present

- Actively participated in inter and intra-college quiz competitions.

Shrishti – Book Club Member

2023 - Present

- Participate in literary discussions, thematic analyses, and peer review sessions on fiction and non-fiction works.
